Notes

- Missing-data treatment: kit rows with no production line are dropped (orders_dropped_no_line).
- Calendar IAT includes overnight gaps; within-shift IAT used by driver (Sargent).
- F400 categories mapped to sim constants in src/config.py (see ASSUMPTIONS §19).
- Kardex 2766/5941 materials marked in özet; treated as a separate carousel resource.
